

What is a social networking site?

- A place online to connect with people and organizations
 - Organize community projects
 - Communicate with friends and family
 - Find connections with people you don't know yet
 - Post announcements, photos, videos, music
 - Plan events or invite people to events
 - Sell your services or products
 - Find jobs

A few examples

Connect and share with the people in your life

Make professional connections

Join “face-to-face” groups of people with similar interests and do activities with them where you live

Get instant updates from friends, celebrities, and organizations
